# 10055

## 15" BENCHTOP PLANER

Our 10055 15" Benchtop Planer combines everything we know about planers, from current and previous generations, and adds to our already industry leading benchtop line-up. We anticipate the new 10055 will be a category leader with the Oliver HCX Helical Cutterhead, increased cutting capacity, and powerful 2.5HP 1Ph 230V motor.

## Features

- Powerful 2.5HP 1Ph 12Amp 230V motor
- 2-Speed gearbox provides 12 or 20 FPM feed rates
- 4-post design ensures cutter head alignment to table
- Oliver HCX Helical Cutterhead
- Oliver DRO for precise material removal
- Large 15" x 23" table size with extension tables
- 4-depth stops allow easy set-up from 1/4" to 1"
- Elevation crank with lock includes an easy-to-read scale
- 4" Dust port to evacuate shavings
- Blower assists in chip ejection during operation
- Safety switch features overload protection and lock-out
- CSA listed

Authentic Oliver HCX Helical shearing cutterhead with four sided inserts. Not segmented or spiral.

Two-speed gear box to maximize cut quality and provides 12 or 20FPM material feed rates.

4" dust port for chip evacuation.

Oliver DRO for easy setup with material removal in inches or mm.

### Model 10055 Specifications

Maximum Cutting Width	15"
Power	230V, 1Ph, 12A
Motor	2.5HP
Cutterhead RPM	5,600 RPM
Table Size	15" x 23"
Maximum Cutting Height	6"
Maximum Depth of Cut	
Material under 6.5" width	1/8"
Material from 6.5" to 15" wide	3/64"
Minimum Stock Thickness	1/8"
Minimum Stock Length	8"
Feed Speeds	12 & 20 FPM
Cutterhead/Knives	Oliver HCX Helical 4 rows of 10 4-sided inserts (40)
Dust Collection	4"
Gross Weight	158.7 LBS
Material Removal Gauge	Built-In
Turret Depth Stop	Built-in
Overload Protection	Built-in
Oliver DRO	Included
Safety Lock-Out Switch	Included

Equipped with a true helical Oliver HCX Cutterhead.
