8" HELICAL CUTTERHEAD JOINTER

The Oliver 4235.230 8" jointer is an excellent choice for those looking for additional cutting capacity. Our freshened up 8" Jointer includes an updated design with relocated power switch and increased horsepower.

Features

- Extra-long precision ground tables provide a stable work surface.
- Parallelogram design provides accurate cuts.
- Cast iron frame offers stable table support.
- Fully enclosed cabinet with 4" port for superior dust management.
- Built-in mobile base with lockable wheels.
- Cabinet includes push pad storage.
- Oliver HCX Helical cutterheads with premium carbide inserts.
- 4-sided cutting inserts are indexed and easy to replace.
- Lever controlled infeed and outfeed table adjustment allows quick set-up.
- Long precision ground fence tilts up to 135° with positive stops at 45° and 90°.
- Easy to read depth of cut gauge.
- Large, lockable pedestal mounted paddle on/off switch for added safety.
- Powerful TEFC 3HP single-phase motor.
- Poly V-belt drive.
- CSA Listed.
